And with Mild Hybrid technology, a responsive engine and strong, lightweight body, it means going from A to B has never been more exciting.

The Ignis is available with ALLGRIP 4-wheel drive* ensuring you can get away from it all, while a bunch of clever tech means you stay connected.

Best of all, the Ignis allows you to play the designer with a range of customisation options that make your car truly yours.

*ALLGRIP 4-wheel Drive system is available as an option on SZ5 models only.

GET READY TO BE NOTICED

WITH BOLD, ICONIC LOOKS, IGNIS WILL TURN HEADS WHILE YOU TURN THE WHEEL.

A distinctive small car with the wow-factor of an SUV, the Ignis combines the manoeuvrability of a compact car with muscular street presence so you can feel ultra-confident behind the wheel.

Thanks to rugged skid plates and high ground clearance, you'll tackle bumpy terrain and hilly city streets with no problems – enjoying a ride that's smooth and protected at all times. Plus, with the roof rails*, there's plenty of room for all your gear, whether it's for a weekend bike ride or ski holiday or even if you just want to look cool.

SHOW YOUR TRUE COLOURS WITH PERSONALISED EXTERIOR AND INTERIOR DESIGN.

The Ignis comes in a range of 13 eye-catching exterior colours that allow you to express your creative flair. Blend beauty with practicality by personalising the exterior to your taste. Will you add front grille surround*, body side decals*, wheel decals* or a roof basket*? The choice is yours!

You can also customise the spacious, feature-filled interior in a similar manner. Red handles or blue*? Silver dash trims or orange*? With the Ignis, you can create a car that's uniquely you. Inside and out.

*Available as a dealer fitted accessory option at additional cost.

DESIGNED FOR FUN

A CAR THAT KNOWS THE DIFFERENCE BETWEEN DRIVING AND COMMUTING.

The Ignis is the perfect mix of fun and practicality. Its light, agile, yet strong chassis coupled with a 1.2 litre Dualjet engine makes every journey something to look forward to.

A compact body design means you can manoeuvre through narrow streets and parking is a breeze. While the SUV-like high driving position gives you an all-round view and awesome confidence behind the wheel.

Whether you choose the manual or CVT automatic option*, the Ignis will help you make the most of every moment in the driver's seat.

*CVT automatic is available as an option on SZ-T and SZ5 models only.

MILD HYBRID TECHNOLOGY

AT SUZUKI, WE'RE ALWAYS INNOVATING. WE'RE ALWAYS LOOKING FOR WAYS TO MAKE YOUR DRIVE ONE TO REMEMBER.

That's why all Ignis models come with Mild Hybrid technology as standard. This helps reduce CO_2 emissions and improve fuel efficiency*, so you get a few more miles in the tank and a great driving experience.

Better still, our Mild Hybrid system is light and compact, so driving performance stays strong without compromising the Ignis' fun to drive character. And there's no loss of interior space either. Talk about win win.

*Compared to the previous equivalent petrol Ignis without hybrid and using the official WLTP combined fuel consumption and CO2 emissions figures.

SPACE FOR EVERY LIFESTYLE

PRACTICAL AND VERSATILE INSIDE.

Thanks to clever interior space design, the Ignis won't cramp your style, with loads of legroom for everyone to sit in comfort. A high roof means excellent headroom to accommodate any hairstyle.

Individually sliding rear seats* can be easily moved forward when you need to pack more for weekend getaways or quickly slid back to provide additional legroom for rear passengers.

*Available on SZ-T and SZ5 models only.

GADGETS FOR YOUR EVERY NEED

ALL THE TECH TO STAY CONNECTED WHILE GETTING AWAY.

The Ignis is kitted out with everything you need to stay connected in a convenient and safe way. Bluetooth connectivity, Apple CarPlay® & Android Auto™*, audio control switches, DAB digital radio, you name it.

ADVENTUROUS CAPABILITIES

WHEN IT COMES TO YOUR SAFETY, WE DON'T COMPROMISE. WHICH IS WHY THE IGNIS IS EQUIPPED WITH A WHOLE ARRAY OF FEATURES TO MAKE YOU FEEL MORE CONFIDENT WHEN YOU'RE BEHIND THE WHEEL.

The ALLGRIP Automatic 4-wheel Drive* option delivers excellent control on any surface, giving you peace-of-mind in difficult driving conditions like snow, rain or rough terrain. The system's light and compact, which means there's no compromise in driving pleasure. Nor does it take up more space. Ignis ALLGRIP models also have Grip Control technology, which ensures a smooth start on roads that are slippery with snow or mud, while Hill Descent Control intelligently restricts vehicle speed and automatically applies the brakes when coming down steep inclines. When you're behind the wheel of an Ignis, you can be confident of going anywhere with these following safety features:

DUAL CAMERA BRAKE SUPPORT (DCBS)†

Two cameras recognise forward vehicles, pedestrians, and lane lines just like human eyes. Based on various information captured by these cameras, this system helps avoid collisions and mitigate collision damage through warnings and automatic braking.

Warning
When the system detects there is the potential for a collision, it provides a warning through a buzzer and a light on the meter panel.

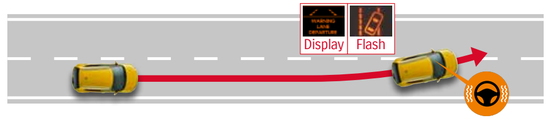
Automatic light brake
If the risk of collision increases, the car automatically applies light braking, in addition to an audio alert, to urge the driver to avoid a collision.

Brake assist
If the driver applies the brakes while the warning brake function is active, the brake assist function engages for more powerful braking.

Automatic brake
When the system determines that the risk of a collision is imminent, it applies strong braking automatically in an effort to avoid a collision or mitigate damage.

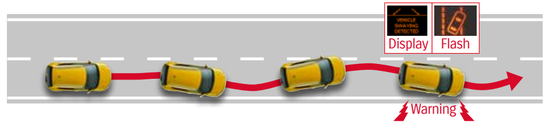
LANE DEPARTURE WARNING**

When the vehicle is traveling at over approximately 37mph (UK) / 60km/h (ROI) and is departing the lane without use of the turn signal by the driver, the system produces a steering-wheel vibration and provides a warning through a light on the meter panel to draw attention to lane departures caused by factors such as inattention to the road.



WEAVING ALERT**

When the vehicle is traveling at over approximately 37mph (UK) / 60km/h (ROI) and is weaving from side to side within the lane, the system provides a warning using a buzzer and a light on the meter panel. This draws the driver's attention to weaving caused by drowsiness or other factors.



GUIDE-ME-HOME LIGHT / LEAD-TO-VEHICLE LIGHT

The headlights continue to illuminate the road for 10 seconds after the driver leaves the car, providing you with illumination as you open the door to your house. The low beams and position lamps turn on and stay on for 10 seconds when you unlock your car doors using the remote control. This convenient function is useful for lighting your way as you approach your vehicle.

EMERGENCY STOP SIGNAL

When applying the brakes suddenly while driving above 34mph (UK) / 55km/h (ROI), in addition to the brake lights the vehicle also automatically flashes the hazard lamps at high speed to alert following vehicles.

SIX AIRBAGS

The Ignis comes standard with six airbags which include dual front, side, and curtain airbags for maximum protection and the knowledge that you and your passengers are as safe as possible.

Warning: Depending on various factors the two cameras may be less able or not able to detect certain objects. Collision may be avoided in some cases where the system is activated at speeds between approximately 3mph and 31mph (UK) / 5km/h and 50km/h (ROI) (for pedestrians, where the speed is under approximately 19mph (UK) / 30km/h (ROI)). Depending on the detection and movement of the object, the alarm may sound only, without accompanying automatic brake. The alarm may activate at the same time as automatic braking in other cases.

*ALLGRIP 4-wheel Drive system is available as an option on SZ5 models only.
**Available on SZ5 models only. †Available on SZ-T & SZ5 models only.
